Letter of Reference

To Whom it may Concern

I am writing this letter to highlight our very strong business relationship with our long standing and loyal supplier, Armtrac Ltd based at 70 reach Road, Burwell, Cambridgeshire CB25 0AH and their Managing Director, Mr Steve Brown.

We have been supplied with several Mechanical Demining Equipments by Armtrac over a number of years and they have also undertaken the production of armoured cabins for other mechanical equipment within our inventory. During this period we have become strong business partners and we have a very good working relationship. The equipment is of high quality and the Company provide training and additional resources to support the equipment in the country of operations.

The company and its very skilled employees strive to deliver high quality, efficient products which are designed to operate in very harsh working environments. Armtrac machines are particularly versatile as they can operate demining equipment and many other engineering tools as well. This allows a single platform to operate in a number of different roles and makes them particularly good value for money as a result.

We have been very satisfied with Armtrac's products and we value the relationship we have with them as a Company and with their team.

Your sincerely

Kevin Kneebone
Managing Director
